

Township

Annual report 2025

Compiled for Siyabonga

www.verein-siyabonga.org

Support for Township residents and preschool children continues

In 2025, approx **181 care packages** were distributed (-1%, compared to approximately 183 in 2024), containing food, hygiene and disinfection supplies, and adult diapers for sick and bedridden people (approx. 8 people regularly receive diapers from us).

Typical foods include rice, cornmeal, flour, oil, and sugar.

On average, a **package costs 37 EUR** (up 12% from 2024) and provides food for a family for several weeks.

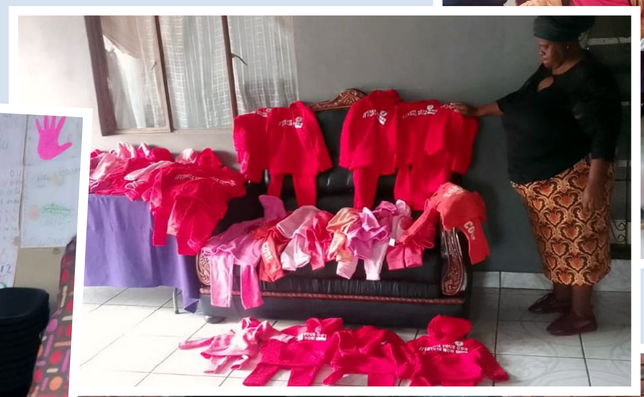

This **Christmas**, the grandmothers in the township were also given gifts.
They traditionally take on the role of raising the children when the parents are no longer around or are working.
They received blankets and soap.

In 2025 again **trips to government offices** were made (depending on need, approximately 4 trips, -50%).

Support continues to focus on work in the township

We have been supporting a **preschool** in the township since 2024. In 2025, we primarily purchased chairs, tables, and teaching materials, as well as tracksuits for the children.

School uniforms were provided **for 13 children** (in grades 1 through 6), as these are required for them to attend school.

Uniform jackets, pants, and shoes cost approximately **30 EUR** per child (-10%, approximately 33 EUR in 2024). Costs depend on clothing size and may therefore vary from year to year.

Seeds were once again provided for the vegetable beds. The water containers are still in use, and **hoses** were also purchased.
